

**Rillos
Engineering**

Service:

PCM to CATIA V5 Reverse Engineering

Project:

767 Wing Ribs

Time Frame:

5 Weeks

Project Description:

Using TIFF scans of PCM Drawings, Rillos Engineering modeled Ribs 5 thru 36 for the 767 Wing in CATIA V5. Ribs were delivered per installation and in proper airplane coordinates.

Notes:

Rib 23 is shown. Upper picture is a section of the PCM scan. The lower picture is the 3D installation.
